Sir Knights,

Greetings, I hope that everyone's doing well and you have had the opportunity to spend time with family and friends.

The one item that I want to address is to thank everyone who helped make the first Battalion wide inspection a success. Kurt Begue worked very hard to get the ball rolling and keep it rolling to get all the Commandery's to come together for a successful inspection. I personally want to thank all the Officers of Fort Wayne Commandery for their attendance and the work they put out for the inspection. Without everyone's dedication and commitment to our Commandery we would not be able to perform the work we do. Again I cannot express the appreciation for all who made the inspection a success and how honored I was to have the first Battalion wide inspection held at Fort Wayne Commandery.

With Fall upon us and the holidays coming quickly, please make time to spend with family and friends. Without them in our lives we would not be the people we are. Thanksgiving is the time to give thanks for all we have but please remember all our Brothers and their family members who are ill and need our prayers. Take care and God Bless.

Fraternally,
Tyson Howenstine
